We Keep the Grass Greener On Your Side of the Fence

Health Check: Your Quarterly PHC Update

Is a white, powdery film appearing on your plants, threatening their vibrant summer growth? This common culprit is **powdery mildew**, a fungal disease that can stunt development and cause leaves to curl or yellow. Often thriving in humid, crowded conditions, proper watering techniques and strategic planting are crucial for prevention. Learn how to identify, prevent, and protect your landscape from powdery mildew by visiting our complete [guide on the Cornerstone Partners website](#).

From Acclaim to Action

Following our recognition as a [2024 Unilock Transforming Hardscapes Awards of Excellence](#) winner, Cornerstone Partners is applying that expertise to new, ambitious projects. Our dedication ensures every hardscape meets the highest standards.

Why Credentials Matter

Our NALP Certified Landscape Technicians (CLT) bring proven, hands-on skills to your property. [This rigorous certification ensures industry-leading quality and efficiency.](#) Rest assured, your landscape is in the hands of skilled professionals dedicated to excellence.

Customer Spotlights

In our Customer Spotlights section, we're highlighting information and tips tailored to the unique needs of our diverse clientele, from HOAs and homeowners to commercial and municipal properties. Find the insights most relevant to your landscape and property goals below.

HOA Focus

With summer heat intensifying, [proper supplemental watering](#) is crucial, especially for the beautiful spring plantings your community just invested in. Understand how to combat drought stress and ensure your shared green spaces thrive, maintaining curb appeal and resident satisfaction.

Single-Family Spotlight

Imagine a consistently manicured lawn without spending your summer weekends mowing. Discover how the latest in [automower technology](#) can keep your grass perfectly trimmed, allowing you to enjoy your outdoor space with ease.

Commercial Insights

Beyond routine trimming, incorporating [structural pruning](#) for trees and shrubs on your commercial property promotes healthier growth, improves air circulation, and enhances the overall visual appeal. This approach ensures your landscape remains a long-term asset, contributing to a professional and inviting environment.

Municipal Matters

While summer is in full swing, now is the ideal time for municipalities to review their [SIMA Snow Procurement timelines](#). Strategic early planning ensures you secure comprehensive snow and ice management services, guaranteeing safe, accessible public grounds and roadways throughout the upcoming winter season.

About Us

Cornerstone Partners Horticultural Services Company (CPHort) was born out of a deep-rooted love for quality horticultural practices. We are fanatical about crafting and maintaining outstanding outdoor environments. CPHort began in the Fox River Valley in 2006, and it's been thanks to satisfied customer referrals that we've been able to expand throughout Chicagoland.

Feedback & suggestions
